

AWARDS

Awards

ISOTT is offering a variety of awards to honor young scientists working in the field of oxygen transport and to support the attendance of the ISOTT meeting

1. **Melvin H. Knisely Award** (age: 40 or younger)

The Melvin H Knisely Award was established in 1983 to honor Dr. Knisely's accomplishments in the field of the transport of oxygen and other metabolites and anabolites in the human body. Over the years, he has inspired many young investigators and this award is to honor his enthusiasm for assisting and encouraging young scientists and engineers in various disciplines. The award includes a Melvin H. Knisely plaque and a cash prize.

2. **Dietrich W. Lübbers Award** (age: 35 or younger)

The Dietrich W. Lübbers Award was established in honor of Professor Lübbers's long-standing commitment, interest, and contributions to the problems of oxygen transport to tissue and to the society. The award includes a plaque and a cash prize.

3. **Britton Chance Award** (age: 30 or younger)

The Britton Chance Award was established in honor of Professor Chance's long-standing commitment, interest and contributions to the science and engineering aspects of oxygen transport to tissue and to the society. The award includes a plaque and a cash prize.

4. **Duane F. Bruley Travel Awards** (no age limit)

The Duane F Bruley Travel Awards were created to provide travel funds for student researchers in all aspects of areas of oxygen transport to tissue. As a co-founder of ISOTT in 1973, Dr. Bruley emphasizes cross-disciplinary research among basic scientists, engineers, medical scientists, and clinicians. It is hoped that receiving the Duane F. Bruley Travel Award will inspire students to excel in their research and will assist in securing future leadership for ISOTT.

Any eligible candidate can apply and win the Knisely, Lübbers and/or Chance Awards in the same year, but may not receive the same award twice.

A candidate can be nominated and receive the Bruley Travel award multiple times, as long as if he/she meets the award criteria in the year of nomination. The award includes a certificate and a cash prize that can assist with paying for ISOTT meeting registration fees and/or travel expenses.

The deadline for all awards applications is **Monday, July 1st, 2019.**
